SUMMARY

Computer Science student with a strong interest in software development and continuous learning. Passionate about improving technical skills through hands-on projects and real-world experience. Eager to apply problem-solving abilities, adaptability, and teamwork in a professional environment while growing as a future software developer and contributing to meaningful technology solutions.

EDUCATION

BS Computer Science Aug 2023 – Expected Jun 2027 *Batangas State University The National Engineering University – Alangilan*

SKILLS

- **Languages:** Java, Python, Dart
- **Frontend:** HTML, CSS, Flutter
- **Backend:** Firebase
- **Databases:** MySQL, PostgreSQL
- **Tools:** GitHub, Git

PROJECTS

Project AGAPAY: Arduino-based Guided Agitation for Protecting Aquatic Yields

- Created a prototype of an **internet-of-things (IoT)** device that measures water characteristics and automatically performs water agitation techniques to maintain and improve water quality and prevent stagnation.
- Designed the UI/UX for the prototype web application that controls the device and provides a realtime dashboard.

FixMyStreet: Community Road Issue Reporting and Social Engagement App

- Developed a **community-driven** mobile application that enables citizens to report and monitor road-related issues such as potholes, flooded streets, and broken streetlights.
- Designed a **social media-style** reporting system where users can upload photos, share issue details, and interact through comments and reactions to promote civic engagement.

VerifAI: An AI-Powered Fact-Checking App Prototype

- Developed a cross-platform mobile application prototype using **Flutter** and **Firebase** that automates the verification of web-based information using **Large Language Models (LLMs)**.

ORGANIZATION

Junior Philippine Computer Society (JPCS) - BatStateU Chapter

August 2023 - Present

Active member of the Junior Philippine Computer Society (JPCS), a national organization that aims to foster, promote, and develop IT students into future professionals

Association of Committed Computer Science Students (ACCESS) - BatStateU Chapter

August 2023 - Present

Active member of the Association of Committed Computer Science Students (ACCESS), student organization dedicated to fostering academic excellence and professional development among Computer Science students in Batangas State University The National Engineering University – Alangilan
